

## Sea Otter - narrowboat aluminium hull 31ft

£ 38,000

### Description

This is a sought after narrowboat having an aluminium construction and water ballast, Hot air heating, shore power, Hot and cold water, 4 berths Sea Otter narrowboats are the Rolls-Royce of the inland waterways. Like all Sea Otter boats, are constructed from Marine grade BS5083 aluminium alloy. It is a material commonly used where strength and longevity are required. Aluminium alloy is a material favoured by the majority of small commercial craft builders. This includes RNLI lifeboats which prove their ruggedness on a daily basis. Buying a Sea Otter means that you never have the expensive burden of annual hauling out and re-blackening or changing anodes. Trailable (21' - 31' Sea Otter Narrowboats) Choosing a Sea Otter narrowboat in the range 21' to 31' will provide you with an almost infinite choice of cruising locations. This is one of the most significant benefits of owning a Sea Otter from the smaller range of narrowboats. The 27'- 31' Sea Otters can easily be transported by road using a suitable vehicle meaning you are no longer tied to the same stretch of canal. Gross trailer weights are 21' 2.45T and 27' 3.4T, the 31' is best trailed by purpose built factory vehicles & Trailers. Launching and recovering is a simple one-person job and because of the unique water ballast system your Sea Otter becomes 1.5 tonnes lighter out of the water. If you yearn for foreign waters or just want to move quickly to new cruising waters. \* BSS 2025 \* Mastervolt battery charger installed 2019 \* Galvanic isolator fitted 2019 \* New 110 Leisure battery installed 2019

**Sales status:** sold
