

Alpha Craft - 29

£ 1

Description

This boat is from the Alphacraft stable of boats that were built over many years mainly for boating on the broads. It is rare to see this craft on our river system, but the dimensions of the boat allow it to travel the majority of our river system on the Great Ouse. With an air draught of 6ft 9inch with the canopy down, it will even go under offord lock bridge. The boat hull has been painted, but the internal cockpit is the original gel coat. The layout of the boat allows for two doubles at the rear under cockpit and in essence has 3 separate cabins It is well worth a viewing and Im sure you will be please with the layout and trim of this boat.
